

TopLeaf

Datasheet

TopLeaf is a professional DITA and XML publishing system from Turn-Key Systems. TopLeaf combines a powerful rendering engine with a stylesheet development toolkit that allows complex document styles to be set up quickly. There's no need to master complex technologies like XSL-FO or call in programmers to style your documents.

TopLeaf components

- TopLeaf Workstation*
- Stylesheet development toolkit *
- API (COM, DLL, EXE) †
- Rendering engine

DITA publishing

- Built-in support for DITA publishing
- Integration with different editing and/or production environments
- Inheritance
- Specialization
- DITA stylesheet template

Stylesheet development toolkit

- Page Layout Editor
- Mapping Editor
- Mapping Assistant
- Typesetting log
- CSS import

Rendering engine

- Multiple page layouts
- Fully automatic composition and pagination
- DITA or XML input with or without DTD/Schema
- SGML without DTD
- CALS or HTML tables
- BMP, EPS, JPG, PCX, PDF, PNG, SVG, TIFF graphics
- PDF, HTML, RTF, eBook outputs
- Unicode support
- CJK languages
- RTL (Arabic, Hebrew)
- 30 European language hyphenation
- User defined dictionaries
- RGB, CMYK and spot colour
- Embedded Perl engine

Rendering engine — *continued*

- Multi-page table rows
- Multi-page boxes
- Multilevel continuation headings
- Dictionary telltales
- Column balancing
- Widow and Orphan control
- Page and column footnotes
- Sidenotes
- Floats
- TOC and Index extraction
- Bookmarks
- Hyperlinks
- Crop marks
- Watermarking

Looseleaf publishing †

- Change pages
- Point pages looseleaf
- Release versioning
- Section based or page based numbering
- Automatic generation of multi-level point pages
- Automatically generated filing instructions
- Automatic list of effective pages (LOEP)
- Automatic release pack optimisation
- Page differencing
- Link lines
- Blank back pages
- Change bars
- Deletion markers
- Leaf specific metadata

Licensing options

All TopLeaf licenses allow you to set up and maintain DITA and XML publications, and produce PDF or HTML, RTF and eBook outputs. TopLeaf Professional Plus adds looseleaf and release management to your publications, allowing you to identify the pages changed between successive document versions.
